RELEVANT EXPERIENCE

Software Engineer | SAIC | Remote

May 2024 - Present

- Developed core features of UNIFY, a **React/Node.js** enterprise solution integrating team data workflows and replacing thousands of spreadsheet-based processes.
- Designed and implemented React Grid integration for the UNIFY project to streamline development and enable future feature scalability.
- Improved team collaboration by advocating pair programming and fostering active participation.
- Revamped API/UI documentation and onboarding materials, reducing ramp-up time for new hires and enhancing productivity.

Software Engineering Bootcamp Instructor | Multiverse | Remote

Jan 2023 - Oct 2023

- Led 75+ intensive software engineering (SWE) workshops covering programming concepts and technologies such as **React**, **Node.js**, **Express.js**, **Sequelize**, **SQL**, and **HTML/CSS/Javascript**
- Achieved a 94% student satisfaction rate, with students strongly agreeing that they felt confident and proficient in the content based on the activities and resources provided in my workshops
- Monitored the progress of apprentices through data collection and sharing insights with the Program team and partners to facilitate the next steps in the learning journey

Software Engineer | Text2Order | Remote

Nov 2022 - May 2024

- Served as the first front-end developer, contributing to key enhancements for event ordering applications at an early-stage startup.
- Revamped the Kitchen Display System (KDS) using **JavaScript**, **React**, and **GraphQL**, improving order processing speed by 50%.
- Maintained 100% software uptime during major events, including Electric Zoo 2023 (85,000 attendees) and 12 EDM festivals at Los Angeles State Historic Park, through rigorous QA testing and redundancy planning.

Infantryman | United States Army | Columbus, GA

Aug 2015 - Apr 2016

- Excelled in all training including physical requirements, leadership, and marksmanship.
- Military service concluded with an honorable discharge after a parachuting incident.

EDUCATION

Fullstack Academy | Full Stack Software Engineer Certificate

Apr 2022 - Oct 2022

- Completed intensive full-time program focused on **React**, **Redux**, **Node.js**, **Express**, **RestfulAPI Design**, **Sequelize**, **SQL**, **PostgreSQL**, and **Advanced Javascript**
- Contributed to team projects with daily standups, code reviews, and Agile project management
- Tutored peers in complex course concepts and coding techniques to facilitate learning

The California University of Pennsylvania | Bachelor's Degree Liberal Studies

2017 - 2021

- Graduated Magna Cum Laude with a 3.6 GPA, intentionally pursuing a diverse curriculum to gain a broad range of knowledge and skills across multiple disciplines.

TECHNICAL SKILLS

Frontend: *React, Redux, Next.js, TypeScript, JavaScript, HTML, CSS, Styled Components, LESS, SASS*

Backend: *Node.js, Express.js, Knex.js, PostgreSQL, SQL, Sequelize, GraphQL*

Misc: *GraphQL, Git, Bash Commands, Agile Methodology, RESTful API Design, NPM, Netlify, Github Actions, LLMs, Jira, VS Code, ESLint/TSLint*
